DRIVER VEHICLE INSPECTION REPORT TEMPLATE

Millstone Avenue - Rutherford | Millstone Avenue,

TUESDAY 18TH NOVEMBER 2025

SUMMARY

The inspection reported four defects requiring maintenance. The highest priority issues are the carburetor showing fuel leakage and corrosion, and the oil pressure reading below the recommended minimum. A medium-priority oil pan gasket leak was noted on the engine, and a low-priority defect was recorded for worn windshield wiper blades. The rest of the vehicle components passed the inspection.
